

Agricultural College and Agricultural Secondary School Benešov

Founded in 1895

Fields of study

Agricultural Secondary School offers to the graduates of Elementary school four branches of studies:

❑ AGRI ENTERPRISING – school studies

- Business in Agriculture
- Equestrian Studies
- Agricultural Mechanization

study our school can obtain a lot of practical skills and theoretical knowledge in many subjects, which enables them to be successful in their future life. Our students also have a positive attitude to ecology and the environment.

Our graduates work mainly in agriculture. However, they can also be successful in food production, related services, enterprising and many other fields. Good study results of our students enable them to

OUR SCHOOL

❑ VETERINARY STUDIES – school study programme:

- Veterinary Technician
- PET Nursing

❑ HORTICULTURE – school study programme:

- Greenery Design and Maintenance

❑ NATURAL SCIENCE LYCÉE

- Science and Research

The study lasts four or three years and the school leaving examination includes both practical and theoretical parts. The practical training of our students is provided on our school farm or by means of our partner enterprises, where the students can meet modern methods and technologies. The students improve their practical and theoretical skills of vocational subjects.

OUR SCHOOL

Agricultural Secondary School also offers three apprentice branches:

❑ FARMER

❑ RIDER AND HORSE BREEDER

❑ GARDENER

Agricultural College offers two study programme:

❑ AGRICULTURAL ENTERPRISING

❑ VETERINARY TECHNICIAN

obtain driving licence for cars and tractors.

Good knowledge of foreign languages is very important. All of our students learn English.

There is also a great opportunity for them to develop their language abilities abroad – our school has had for many years an active partnership with a few schools and organizations abroad. We cooperate with these schools in the area of student exchanges, international projects, and practical training.
